T. H. Mawson, Esq.,
High Street House,
Lancaster, England.

Dear Mr. Mawson:

I was very glad indeed to see in the paper last week that you have been asked by the King and Queen of Greece to redesign the city of Athens. I can quite understand that it is the greatest compliment that could possibly be paid you, and I am sure that you will do it well.

If I get a chance of saying anything to the Governors of Upper Canada College I will speak to them about your desire to have the chance of doing the new grounds. They are out in the country, and just what opportunity they would give for landscape architecture I do not know.

It is possible that Mrs. Falconer and I may get a glimpse of you this summer, as we are going over to Norway and Sweden, but we are not yet sure whether we shall return by Hamburg or by Liverpool.

With kind regards, I am,

Yours sincerely,

President.

T. H. Lawson, Esq.,
Lancaster, England.

My dear Mr. Lawson:

There is I regret to say no chance of our having a chair of Landscape Architecture and City Planning at the University of Toronto in the near future. There are so many other departments clamoring for help and our funds are so short that it would be out of the question for us to establish a new one at present.

I hope that you get on very well with your work in Athens and that you will enjoy it. With kind regards,

I am,

Yours sincerely,

President.
